

**Mohamed Semra****Co-founder of Endeavors Youth organisation**

Mohamed is a young leader working to shatter stigma and misconceptions surrounding African migrants and refugees. As someone who migrated to Australia he has encountered and overcome many challenges; learning English and overcoming a severe stutter, being elected as School and Debating Captain, winning the Commissioner's Race Discrimination Prize for his essay on racism, and developing a social enterprise.

Mohamed currently serves on a non for profit board and is a proud peace ambassador for Humanitarian Affairs Asia. He hopes that sharing his story and the resilience he has gained from it will inspire young people to become leaders and challenge the negative stereotypes they often face.
